

The *only* person in the whole world who will determine whether you become like the person on the *left* or the person on the *right* is YOU! Don't "sell yourself short" because you have the same potential as any president or C.E.O. because you can make your own "plan for success" that will help you to achieve everything you want in life and then you can go to college and/or work 6/7 days a week for years if needed, until you succeed because that is how most successful people "made it".

If your first attempt doesn't work, then try again. For example, the creator of "Oppi" and "Pessi" went to college for 3 years to be an X-Ray tech, then he went another 3 years of college to be a Nuclear Medicine tech and then he went another 6 years of college to become an optometrist! YOU have to *take charge* of your life and make it happen!

We can all learn a *lot* from that clown. You can knock it down a *million* times and it will keep getting back up and then finally, when you get tired of hitting it and walk away ... it wins!

The surest way to succeed is to *make a great plan* and then never give up trying. You have to have *both* elements to guarantee success. If you keep trying and you don't succeed, the world may be telling you that you need to change your plan. Even if you have the world's greatest plan, if you quit after your first failure, you can't possibly succeed.

The Grand Canyon was carved out by flowing water. It took *millions* of years but if you have persistence, success will follow. Mohammad Ali said, "Winners never quit and quitters never win" and then he proved it to the world!

Most of us spend our lives dreaming of becoming *rich* and *famous* like our heroes. We go to their games and we read books about them and then some day, we will die. If God would ask us what we did with the gift of life that He gave us, we will have to tell Him that we spent it watching *another* person live *their* life.

Wouldn't it be better for us to put the time and energy we have into *our* life instead of watching someone else live *their* life? In life, there are *performers* and there are *spectators*. Remember: A great person is someone, who dreams a dream, and then makes it happen! You won't ever do that by spending your time watching *other* people who have done that.

It is easy to accept failure when we *think* that it isn't possible for us to succeed. All we have to do is to hear about average people, who overcome tremendous obstacles to achieve their goals, and it will show us that the obstacles that we experience are not nearly big enough to stop us. Here is one example:

Ray Ewry won 10 Olympic gold medals in the standing broad jump and the standing high jump. Because Ray was unable to walk on his own, he had to be carried to the platform. He had plenty of reason to never try but he picked the one event he could perform and he did it better than any person in the world.

It is easy to try to *imagine* what a person is going through and then make harsh comments about those people but sometimes, the only way to really find out is to go through *exactly* what they are going through or, as the expression goes, "walk a mile in their shoes".

There are people who have a lot of *pride* in their appearance and are willing to do the necessary *work* and make the necessary *sacrifices* to stay healthy and there are people who are the *opposite*. Whenever two of these "opposites" happen to be married, it can cause stress in both of their lives.

The person, who isn't leading the healthy lifestyle, will never know how difficult it is for their spouse because they will never be able to "walk a mile in their shoes" but they should try their best to understand how difficult it is for them and then they should work, as hard as they can, to lead a healthier lifestyle, so both of their lives will be better.

This message is *so* true. Please read it again - three times! Everyone else will always be busy taking care of *their* lives.

For example: If you want to have a *great* job, lead a *healthy* lifestyle and live by the *ocean*, you have to *make it happen*. Nobody else is going to say, "OK, today you are moving to Ft. Lauderdale, you are going to eat the healthy food that I bought for you and you are going to sign up for Medical school".

You have to *take control* of your life - *every* aspect of it. For example, will you smoke, allow yourself to get fat, remain single, enter college, work five or seven days/week, save for your retirement, work indoors or outdoors, work in Indiana, Florida or Canada, go after a job that makes \$10,000 or \$100,000 per year etc? If you don't make these decisions, **NOBODY ELSE** will make them for you!

We all want nice things in our lives like a new car, new house, vacations or a college education. The reason we often don't get them is because we want to get them without *working* for them.

To get the nicer things in life, we have to work really *hard*, for a really *long time*. Sometimes we have to work *two* jobs and we also have to sacrifice by giving up other things that we *really* want. Look at anyone who has what you want and you will see someone who made a *plan* to get it and then they worked *really hard* to make that plan come true.

We have "Exciting" news for You!

For the first time, YOU can sell "**Oppi**" the Optimist and "**Pessi**" the Pessimist Motivational Children's Calendars as a **Fund Raiser** for your Church, School, Employer, Kid's organization (Little League, 4-H, Scouts etc.) or even your Family! **The Calendars sell for \$14.95 and you make \$5.00 on every Calendar sold!** (The Calendars can be shipped to any location for only \$3.00 extra - no matter how many!)

The Calendars are EASY to sell for the following 5 reasons:

1. Everyone needs a calendar!
2. Every child can count on sales to at least their: Parents, several Aunts/Uncles, both Grand Parents, Cousins, Neighbors and Friends because they are going to buy a calendar anyway and they like to help kids out - especially if it is for a great cause!
2. The calendars promote a "Great Attitude", which is the Most Important product in the world, because everyone will use it every second of the rest of your life!
3. These calendars cost less than other calendars and they are the highest "professional quality" made.
4. Additional topics include: **Religious, Patriotic, General** and even **Weight Loss!**
5. Inside is a "Special Discount Offer" for two books designed for High School children.

"Oppi" and Pessi" Motivational Children's Calendars are the

"**Perfect Christmas Present**" because:

1. They are always the correct Size and Color!
2. The calendars will "Motivate" everyone to have "**Positive Attitudes**" and "**Achieve their Goals**" the rest of their lives!

Since EVERYONE needs a calendar and they can always use some "Motivation" for a better life, your Christmas shopping can be finished in a few minutes! For additional information, contact: smith@website5.com

Here's a GIFT from the creator of "Oppi" the optimist and "Pessi" the pessimist.

Dr. Richard Smith wrote the two books described below, which retail for \$19.95 each. The books can be purchased on: **Website5.com**. If you insert the code: 2468 into the gray "Discount code" box, then you can "download" either of the books for only **\$3.95** each - **Compliments of "Oppi" and "Pessi"**.

Description of Book #1: "**What Will I do after High School?**"

Dr. Smith started out as an **X-Ray technologist** and then he became a **Nuclear Medicine technologist** and finally a **Doctor!** He wrote "**What Will I do after High School?**" to help other people choose the career that will be perfect for them the "first" time! The book describes over 2,000 careers and gives "key information" to consider about each career. He lost over a **Million Dollars** by not choosing his present career the first time. Don't let that happen to you or your child! (Save a Million dollars by spending \$3.95!)

Description of Book #2: Dr. Smith wrote "**Graduation Gift from Grandpa**" after hearing a lot of "older folks" say, "It would be nice to be young again ... if I could know then what I know now!"

The book's philosophy is: **Don't make the same mistake twice and let Grandpa, and his friends, make it the First time for you!** Ol' Grandpa hopes that his advice will make the "Rocky Roads" of life a little smoother for some young folks to travel on!

Be sure and write on your new "**Oppi**" the Optimist and "**Pessi**" the Pessimist Calendar when it is time to reorder next year's Calendar!

We often hear people say that their lives aren't going the way they want them to go. Well, the truth is, their lives are going exactly the way they want them to go. For example, if we don't like our *job* and we want to be a teacher, nobody is going to just hand us a teacher's degree! If we want to have more money, nobody will give us that "pot of gold". We have to *make it happen!*

We applied for the job that we have so we chose it. Likewise, we will have to *choose* the next job we will have. We may have to work *and* go to school *and* give up time with our friends while we study but "nothing good comes easy". If we don't want to work that hard, then we are *choosing* to take it easy but we are getting exactly the life that we *chose!*

The American people have been through a lot during the last 200 years. They made it through the *Great Dust Storms* in the West, the *Great Depression*, the *Civil War*, *floods*, *droughts*, two *World Wars*, the *Korean War*, the *Viet Nam War*, *terrorism* and many other difficult periods.

The American people have proven that "When the going gets tough, the tough get going". The American people have truly earned the title of: Amer -I-CANS.

Human beings all have doubts about whether we can achieve our goals. Instead of letting that *stop* us from reaching our goals, we can use that information to help us to *achieve* our goals. For example, every time we feel like we want to stop trying, we just have to realize that everyone else feels the same way so if we try even harder, all of those *negative thinkers* will stop and that will allow *us* to succeed!

Whenever you firmly believe that you *can* do something, you won't stop trying until you achieve that goal because you *know* that you can do it and if you never quit, you will always succeed.

People all have different *strengths* and *weaknesses*. A person, who is good at math, may not be good at basketball. Nobody is the best at everything. Some people are the *best in the world* at one thing but that only lasts for a few minutes or seconds because somewhere in the world, someone else just got better than them.

If we allow ourselves to feel like a failure if we are not the best, we will feel like a failure most of the time and so will everybody else. Our goal should be to be the *best* that we can be! That may seem easy but to be the *best* that we can be, we have to "push our limits" very hard - probably harder than we ever have in the past. If someone beats you on a math test, that is OK because you may beat them the next time. The key is, if you both did your *very best*, you *both* were winners. Likewise, if you *never* did your best, even if you won a competition, you shouldn't consider yourself a winner because you can't be a winner unless you do your very best!

When we are children, it is easy for us to notice that our beds are *made*, our meals are *prepared* and our clothes are *cleaned* and *ironed* but to forget that someone *else* had to do it - our parents. Since our parents are always very busy earning a living and running the household errands, we should try to help them out whenever we can. We should not always expect it to be a “one-way” street.

Parents are supposed to raise their children and therefore, provide for them and teach them about life but that doesn't mean children should become *lazy* and use their parents as maids and butlers.
